“Yes, the Lord pours down His blessings. Our land will yield its bountiful harvest”

Psalms 85:12

It’s Officially Fall at Toah Nipi

Fresh Pressed Apple Cider

This year we had the opportunity to gather apples from our very own orchard and turn them into our first batch of homemade cider. From picking the apples to washing, chopping, and pressing them, it was such a fun experience to see how something so simple could turn into something so delicious!

One of the things we love about Toah Nipi is getting to enjoy God's creation in so many different ways. Whether it's spending time outdoors, enjoying the changing colors of the leaves, or gathering around to make something together, these little moments remind us of the beauty and blessings God has placed all around us.

We are so thankful for the opportunity to enjoy the fruits of our orchard (quite literally!) and look forward to making more memories like this in the seasons to come.

Cheers to the simple joys of life at Toah Nipi!
